

## **Keeping the Faith Aslan Academy FAQs**

### **I want to become more intentional about discipling my family. How do I get started?**

*The Keeping the Faith: Equipping Families for Effective Discipleship* guidebook takes the guesswork out of discipling your children and teens at home. We have identified a small number of high quality resources that supply the wisdom that you need to begin and to sustain a well-rounded, robust and rewarding Christian culture for your family. In addition to these books, the guidebook's Bible studies, articles and discussion guides enable parents and grandparents to bring the Christian faith to life for kids of all ages.

Finally, a comprehensive Aslan Academy Small Group Leader's Guide at the end of the guidebook and the Aslan Academy Quickstart Guide (download for free at [KTF Quickstart Guide](#)) gives potential Aslan Academy small group leaders all the information, advice and encouragement they need to launch their own family discipleship group in their church, their neighborhood or online.

### **What is the Aslan Academy?**

The Aslan Academy is the small group component of the Keeping the Faith family discipleship program. Although the material in the *Keeping the Faith* guidebook can be used effectively by individual families, we believe that fellowship is a key feature of an effective family discipleship effort. Therefore we have developed the guidebook's Meeting Guides to facilitate small group gatherings in which adults gather regularly to pray, read scripture and discuss the themes contained in the corresponding recommended readings.
